PRODUCT DATA SHEET

Product	Oven Mate Glass & Ceramic Hob Cleaner (Product Code OM10104-R12)
Type	Liquid cleaning product for cleaning glass & ceramic hobs.
Intended Use	For cleaning baked-on food, grease and stains from glass and ceramic hobs. Also suitable for halogen and induction hobs.
Special Features	Water-based. Scratch and smear-free, unique, powerful, fast-acting formulation cleans, protects and polishes. Makes repeat cleaning easier and leaves no nasty smells.
Preparation	ENSURE HOB IS SWITCHED OFF AND SURFACE IS COLD.
Application	Shake bottle and spread evenly over cold hob surfaces. Leave a few minutes on heavily soiled areas, then wipe clean with a damp cloth, rubbing gently over stubborn residues. Polish with a dry cloth. For extra shine, buff with a microfibre cloth.
Coats	A single application should be sufficient except in cases of exceptional soiling.
Drying Time	Leave for a few minutes on heavily soiled areas.
Re-coating Time	N/A
Application Temp.	Ideally between 15 -25 °C.
Coverage	N/A
Maintenance	N/A
Compatibility	For use on glass and ceramic hobs. NOTE; contains fine abrasive particles, before first use test on an inconspicuous area.
Settlement	Shake well before use.
Shelf-life/Storage	Use within 24 months of opening
Hazards	WARNING. Keep out of reach of children. Contains Citonellool, Hexyl Cinnamic Aldehyde, Limonene and p-tert-butyl-alpha-methylhydrocinnamic aldehyde. May produce an allergic reaction. Causes severe eye irritation. Wash hands thoroughly after handling. Dispose of container/contents to hazardous or special waste collection point. Wear protective gloves/clothing, plus face and eye protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue eye rinsing. If eye irritation persists, seek medical attention.
Clean-Up	Use a clean cloth and water.
Sizes	300 ml
